PROFESSIONAL EXPERIENCE

Oriens DevSecOps Pvt. Ltd.

Nagpur, India

Software Developer

Nov-2023 –Present

- Built and maintained responsive, component-based web apps using React.js, Magento, and JavaScript.
- Collaborated with backend and QA teams to develop and release new features on time.
- Optimized UI performance and accessibility across devices, increasing responsiveness by ~30%.
- Fixed legacy bugs and integrated feedback loops for continuous UX improvement.

Appzmine Tech Pvt. Ltd.

Nagpur, India

Full Stack Developer

Jan-2022 –Oct-2023

(Including 6 months Internship)

- Developed full-stack web apps using React.js, Node.js, Express, and MongoDB.
- Implemented secure JWT-based authentication, role-based routing, and dashboard features.
- Improved frontend load times by optimizing rendering and asset bundling (Webpack).
- Led UI improvements that boosted session duration and user interaction metrics.

PROJECTS

Frutiger India – CRM Web App

- Led frontend development of a dynamic CRM platform with secure login, user dashboards, and responsive UI.
- Integrated RESTful APIs for lead management, invoicing, and billing modules.
- Implemented PDF generation and data visualization features to enhance user reporting experience.
- Ensured scalable, reusable component architecture and cross-browser compatibility

Chat App

- Created an end-to-end CRM with secure login, lead management, and invoicing.
- Handled both frontend and backend architecture, ensuring maintainable codebase.
-

HELPING HAND A Multi Level Marketing Website

- Designed the frontend for a multi-level marketing dashboard with modern, responsive UI.

- Integrated earning visualizations and dynamic user tracking features.

Frutiger India Website

- Developed and structured Frutiger India's website to showcase industrial solutions for wheel washing, dust control, and demucking technologies across diverse vehicle types.
- Integrated user-friendly navigation and SEO-aligned architecture to highlight brochures, technology insights, and client references effectively.

Azulman Website

- Developed the frontend of a home services booking platform using React.js with a focus on responsiveness and modern UI design.
- Designed intuitive user interfaces that enable seamless navigation and booking of maintenance services.
- Continuously enhanced the user experience through iterative UI improvements, performance tuning, and usability testing.

KNK Signage

- Developed a responsive website to highlight KNK Signage's vehicle branding and signage services.
- Implemented engaging animations using GSAP and smooth scroll to create a dynamic and interactive user experience.
- Ensured cross-device compatibility and modern design aesthetics to reflect brand identity effectively.
